## DETAILED ACTION

Page 2

The claims 1-26 are pending in the instant office action.

## Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims1-15, drawn to method of production of amino acid using microorganism expressing polynucleotide comprising SEQ ID NO: 3.

Group II, claims1-15, drawn to method of production of amino acid using microorganism expressing polynucleotide comprising SEQ ID NO: 5.

Group III, claims1-15, drawn to method of production of amino acid using microorganism expressing polynucleotide comprising SEQ ID NO: 7.

Group IV, claims1-15, drawn to method of production of amino acid using microorganism expressing polynucleotide comprising SEQ ID NO: 9.

Group V, claims1-15, drawn to method of production of amino acid using microorganism expressing polynucleotide comprising SEQ ID NO: 11.

Group VI, claims1-15, drawn to method of production of amino acid using microorganism expressing polynucleotide comprising SEQ ID NO: 13.

Group VII, claims1-15,, drawn to method of production of amino acid using microorganism expressing polynucleotide comprising SEQ ID NO: 15.

Group VIII, claims16-26, drawn to microorganism and plasmid expressing polynucleotide comprising SEQ ID NO: 3.

Group IX, claims16-26, drawn to microorganism and plasmid expressing polynucleotide comprising SEQ ID NO: 5.

Group X, claims 16-26, drawn to microorganism and plasmid expressing polynucleotide comprising SEQ ID NO: 7.

Group XI, claims16-26, drawn to microorganism and plasmid expressing polynucleotide comprising SEQ ID NO: 9.

Group XII, claims16-26, drawn to microorganism and plasmid expressing polynucleotide comprising SEQ ID NO: 11.

Group XIII, claims16-26, drawn to microorganism and plasmid expressing polynucleotide comprising SEQ ID NO: 13.

Group XIV, claims16-26, drawn to microorganism and plasmid expressing polynucleotide comprising SEQ ID NO: 15.

The inventions listed in Groups I-XIV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The technical features of Groups VIII -XIV are products having different technical features. Such as microorganism of group VIII express polynucleotide having different structure an that of microorganism of group IX and so on.

The technical feature of Groups I-VIII is the method steps using particular reagents, in this case different transformant expressing different polynucleotide variants. The method step of group I use a reagent which is not shared with group II method step, so on claims. Thus, the technical feature of Group V is not shared with group VI and so on.

Groups I & VIII, groups II & IX and so on, pair share a technical feature, a product transformant expressing a polynucleotide, thus Group I claims use the product of group VIII in

Application/Control Number: 10/590,705 Page 4

Art Unit: 1652

their method step and that of group II use that of group IX and so on.. However technical feature linking group I-XIV, microorganism expressing NADH dehydrogenase, does not constitute a "special technical feature" as defined by PCT Rule 13.2, because it does not claim a feature which defines a contribution over the prior art as microorganism expressing NADH dehydrogenase is taughtby Matsushita et al. (FEMS Micrbiool lett 2001, pp271-276. from IDS).

- 4. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.
- 5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
